Dear Principal,

Outstanding Achievement(s) of Your Primary Graduate

It is our pleasure to congratulate you on the outstanding achievement(s) attained by your primary graduate who is now studying in TWGHs S.C.Gaw Memorial College. (Refer to Attachment)

We would like to take this opportunity to thank you for giving holistic education to foster the potential of the student, which results in the cultivation of positive attitudes and values to cope with various challenges in different stages of his/her life. Your contribution to the positive growth and development of the student is highly appreciated. We are so proud of getting engaged in providing balanced and all-round education for the well-being of the student on campus.

With your dedication to nurturing students of high-caliber, we can continue to help them strive for academic excellence and to raise their awareness of the importance of moral and character development. In terms of intellectual performance, as language is the key to communication and understanding, all students will be given opportunities to brush up their languages (biliteracy and trilingualism) in the language-rich environment in which students will be exposed to the use of languages in different channels such as morning assemblies, Homeroom Periods, Life-wide English supervised by NETs, Campus Radio, Form-based English movie appreciation, regular English speaking days, etc. To cater for learner diversity, we have arranged various remedial and enhancement courses with the aim to enhance the language proficiency of students.

With respect to personal development, we have been working hard to establish a caring and loving school where students are shown the importance of health and fitness, environmental and values education. Students are encouraged to take part in activities and immersion programmes organized by departments, subjects, 60 interest clubs, uniform groups and school teams. Potential students will participate in a wide range of local and international competitions. For example, Our Latin Dance has been awarded more than two thousand prizes in different places like London, Milan and Malaysia. This can help widen their horizons of the world, and enhance their maturity and self-confidence.

We look forward to a continued partnership with you. You are welcome to contact General Office at 24950226 for further information.

Yours sincerely,

Ms Tang Wai Chun, Agnes
